Neeranjan JK

Neeranjan Jayamurugan Karthikeyani

Founder, Lucidence AI · Vertical AI & SaaS builder · Former SAP data analyst

Lemgo, Germany · jkneeranjan@gmail.com · linkedin.com/in/neeranjan-jk · jkneeranjan.github.io

PROFILE

Founder who builds vertical AI end to end. I took Lucidence AI from an idea to a registered company, a live product and owner apps on the App Store and Google Play within a year, and did the product, engineering, compliance and go-to-market myself. Before that I spent two and a half years in data and strategy at SAP. I hold an M.Sc. in Business Intelligence & Data Analytics and a degree in mechanical engineering.

EXPERIENCE

Lucidence AI UG (haftungsbeschränkt) · Lemgo, Germany · lucidence.ai

Nov 2025 – present

Founder & Managing Director · AI receptionist and booking book for restaurants and salons

- Founded the company (registered August 2026, Amtsgericht Lemgo HRB 12114) and built the product myself: voice agent, telephony, booking engine, web dashboard and native iPhone and Android apps. **First commit to both app stores in seven months.**
- Designed the vertical logic: table-capacity booking for restaurants, one calendar per stylist for salons, an 85-language phone agent that books through tool calls, SMS confirmations, reminders and review requests, and an integration feed for restaurant tills.
- Built for German rules from day one: audit logs, consent records, retention and erasure flows, opt-in call recording (§ 201 StGB), AI safety rules the business cannot override, and automated cross-tenant isolation tests in CI (about 490 server tests).
- Run go-to-market: design partners live in Heidelberg and Lemgo, pricing (€99–399 per month), German-speaking sales partners, incubation at CF-OWL (TH OWL), Anthropic's Claude for Startups programme.

TypeScript · React · Node.js/Express · PostgreSQL · Capacitor · ElevenLabs · Claude API · Twilio · Playwright/Vitest · GitHub Actions

SAP SE · Walldorf, Germany

May 2023 – Oct 2025

Associate Data Insight & Strategy Analyst · Partner Ecosystem, SuccessFactors

- **Partner Capacity Forecasting Tool** (thesis project, published on SAP BTP): built and deployed an ML model forecasting project inflow and consultant demand three years ahead across the SuccessFactors partner ecosystem, with user overrides for workforce planning and module-level skill gaps.
- **Business Suite Partner Profiling Framework:** led data modelling, KPI alignment and stakeholder work for one source of truth on cross-LOB partner metrics (renewals, consumption, compliance, adoption) with global and regional heads.
- **Partner Pipeline Contribution dashboard** (Power BI, DAX): compared direct and partner-sourced pipeline by volume and value; surfaced stalled-pipeline signals and partner behaviour for leadership.

Danfoss Industries · Chennai, India

May 2022 – Aug 2022

Business Analyst Intern · Drives and Climate Solutions

- Automated a Power BI stock-status dashboard for the fulfilment team: 40 % less manual tracking.
- Built a dashboard on service-centre compliance with sales agreements: SLA adherence up 25 %.
- Modelled NPS drivers (heat maps, correlation): top three loyalty factors identified, survey utility up 30 %.
- Built a sales-forecasting model on five years of history: demand planning 20 % more accurate.

Gasfe Technology · Chennai, India

Jan 2020 – Nov 2021

Consumer Insight Analyst Intern · Furnace and gas-plant manufacturer

- Analysed service-usage and satisfaction data to redesign support workflows: resolution time down 35 %.
- Helped the support team set up a customer-relationship team: sales up 25 %, customer retention up 30 %.

Earlier engineering roles · India 2018 – 2019

- **Raptee Energy**, Mechanical Systems Intern (Sep–Dec 2019): frame architecture and material selection from test data; bill of materials; Power BI reporting.
- **MK Auto Components**, Operations Analyst Intern (Jun–Aug 2019): cut takt time by 2 % by shortening annealing time after correlating quality with annealing duration.
- **BAJA SAE India 2019**, CTO & Vice-Captain, Steering (Aug 2018 – Jan 2019): 20-person team that designed and built an all-terrain vehicle; 2nd in Tamil Nadu in the virtual round.

PROJECTS

- **Bonwerk POS** (2026): offline-first restaurant till for Germany; hub and tablets, TSE signing interface and DSFinV-K export, 241 automated tests; pulls Lucidence reservations through its integration API.
- **$0 AI film studio** (2026): local pipeline (open video models, Three.js, Playwright, ffmpeg, AI voice-over) that produced Lucidence's eight marketing films.

EDUCATION

M.Sc. Applied Entrepreneurship · TH OWL, Lemgo Feb 2026 – present

Lucidence AI is my course project.

M.Sc. Business Intelligence & Data Analytics · Hochschule Emden/Leer Sep 2022 – Oct 2024

Grade 1.74 (German scale) · Thesis project at SAP: partner capacity forecasting

B.E. Mechanical Engineering · Anna University, India Jul 2018 – Jun 2022

CGPA 8.68, first class with distinction · Thesis: sales demand forecasting and business insight development

SKILLS

Vertical AI & product
Voice agents, LLM tool calling, prompt and safety design, conversation design, pricing, GDPR by design

Engineering
TypeScript, React, Node.js/Express, PostgreSQL, Drizzle, Capacitor (iOS/Android), Twilio, ElevenLabs, Claude API, Vitest, Playwright, GitHub Actions

Data
Power BI (expert) & DAX, SQL, Python, ML forecasting, SAP Analytics Cloud, SAP BTP, Tableau, ETL

Working style
Stakeholder management, KPI design, Lean Six Sigma, Jira, Confluence, cross-cultural teams

LANGUAGES

English (fluent) · Tamil (native) · Telugu (native) · German (A2, learning)

RECOGNITION

- CF-OWL incubator, Campus Foundry of TH OWL (2026)
- Anthropic Claude for Startups programme (2026)
- Student Parliament, Hochschule Emden/Leer: elected with 250+ votes, first international student to win a seat; Budget Committee (2023)
- SAE Southern Section, 1st runner-up, vehicle assembly; IBM IoT workshop, 2nd place
- Certificates: Excel Specialization (Coursera), Lean Six Sigma (Udemy)
